

## PLANNING

the ultimate project planning solution for construction contractors, engineering consultants, and local and state government agencies. Wave goodbye to guesswork and hello to precise and reliable project management that leverages cutting-edge workflows and automation to keep your projects on track and under budget.

## THE PROBLEM

In today's fast-paced construction and engineering industries, keeping projects on schedule and within the approved budget is a top priority. However, traditional project management methods often involve high levels of uncertainty and guesswork, leading to poor planning, missed deadlines, and costly overruns.

## THE SOLUTION

Gnosis Planning feature is here to change the game. Our sophisticated project planning feature is tailor-made to address key challenges faced by construction contractors, engineering consultants, and government agencies alike. From detailed specifications to risk management, Planning provides a comprehensive solution for every stage of your project.

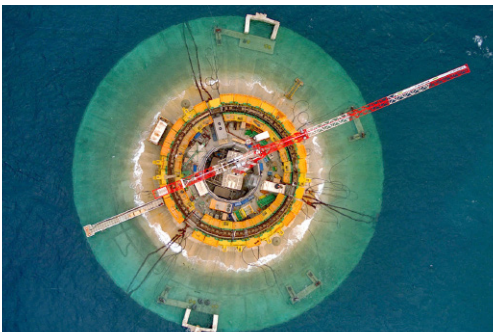

## THE VALUE

Beyond addressing key pain points, Planning sets itself apart from the competition through its integration of advanced automation and analytics. It empowers your team to make better, data-driven decisions while saving time and resources.

# KEY FEATURES:

## REALISTIC PROGRAMS

---

*Generate precise project plans incorporating specifications, risk assessments, schedules, and costs. Minimize estimation errors and mitigate risks effectively using robust data and analytics.*

## ADVANCED WORKFLOWS

---

*Streamline your approval process and never miss a deadline. Planning's state-of-the-art automation keeps your project on track and ensures all stakeholders are informed in real-time.*

## COST TRACKING

---

*Stay on top of your budget with detailed insights into estimated vs. actual costs, making it simple to adjust and adapt on-the-fly. Maintain total financial control throughout your project's lifecycle.*

## ONE SOURCE OF TRUTH

---

*By centralizing data within Planning, your team can have a single, reliable source of truth to reference throughout the project. No more misinformation, just accurate and up-to-date insights.*
